Wheel-DOCK™

A Companion Product to the **Tiller-Wheel™**

- Fits on 1" & 7/8" dia. railings!
- Quick Release Pin!
- Easy to mount and use!

The **Wheel-DOCK™** clamps on a 1" or 7/8" safety rail or bimini support and holds the wheel safely out-of-the-way when using the **Tiller-Wheel™**.

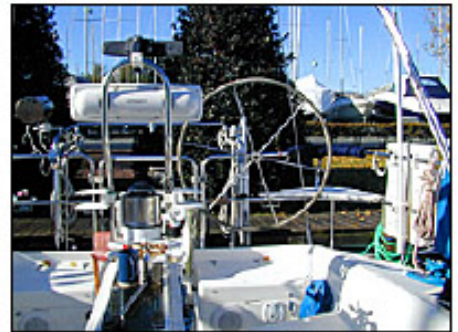

Four stainless steel fasteners secure the clamp and a 1/4" quick release pin makes it easy to install or remove the wheel. For safety purposes, it should be rotated to a vertical position when not in use. In this position it may also be used as a belaying pin for an extra line! Designed for 1" I.D. wheel hubs.

Closeup of wheel hub mounted on Wheel-Dock™

Mounted out-of-the-way on bimini frame.

Mounted out-of-the-way on stern rail of a Catalina 380.

Wheel-DOCK™
